NOW FOR THE GIANTS

Washingtons Will Next Play the New

TALK OF NEW MEN FOR THE LOCALS

Earl Wagner Confident of the Team's Success.

CURRENT SPORTING NOTES

The New York club is scheduled to inaugurate its first series with the Senators on the home grounds today. Joyce's team is handicapped to a certain extent by the injury to George Davis, but Stafford has been placed at short and acquitted himself extremely well in the game at Baltimore last Friday. Big Bill Clarke will play left instead of Stafford, and in this change the already strong batting aggregation is strengthened at the bat. Should the local twirlers be able to hold the New Yorkers in check in the matter of batting the Washington boys should give a good account of themselves in the series. Caylor, the New York Herald correspondent, who is traveling with the club, has given it out that the Giants will take three games down here, but the same demands were made last fall and the local club found them easy picking. Rusie will pitch in one of the games, and it is probable that Mercer will be saved to oppose him.

Strengthening the Team. There has been considerable gossip during the past week over the addition of new men to the senatorial aggregation, but so far nothing definite has been decided upon Messrs. Wagner and Schmelz realize the fact that two hard-hitting players are needed, but when such men are angled for the bait has to be of such richness that it would weaken the Senators to keep up the fishing. Roston, was willing. Boston was willing to trade a couple of good men, but in exchange want-ed Mercer or King, and of course such a proposition could not be listened to for a

Few clubs have players with the ability would strengthen the Washington club that are willing to part with them. The season is young yet, and all the clubs are holding back, waiting on their players to show weak or strong points. There are several players in the Eastern League that are available for the local club, but it is too early for them to have shown what they are really worth. As the situation stands today, Holmes, the hard-hitting right fielder, is about the only man with a reputation that there is a possibility of the local management landing. This player was on the market a week ago, but as the Louisvilles are doing so well the chances are every one of the men on the Colonels' pay roll will be held on to to keep the club up to its present standard of play in case

What Mr. Wagner Says. In a short conversation this morning with Mr. Earl Wagner the latter told a Star reporter that he is perfectly satisfied with his team, and that he is confident it will come around all right. He said the team was fielding as good as any club in the league, but that the batters like McGuire, Selbach and O'Brien had not yet gained their batting eye. Attention was directed to O'Brien, who is hitting the ball hard every time up, but unfortunately right into the hands of the opposing fielders. This sort of luck cannot follow him alli the time and he is bound to land them safe in the

All Mr. Wagner asks of the local enthus iasts is to have a little patience. The sea-son is but two weeks old, and he says he son is but two weeks out, and he says he is willing to stake his reputation on the prediction that the club will improve and will give a good account of itself.

Mr. Wagner also assured the reporter that whenever the opportunity came when the local club could be strengthened in any way no one would be uncker to grasp the situation in all the details than he.

HARTMAN'S FATAL THROW.

It Gave the Game to the Cleveland Club.

That soft spot out at St. Louis has enabled the Cleveland club to brace up enough to make its record look respectable, the Spiders capturing another game from the Browns yesterday by 3 to 1. Both pitchers, McDermott and Hart, did exceptionally good work, the record for each being but four safe hits, but a wild throw by Hartman, on third, for the Browns, allowed the game to go to the visitors. There were about 8,000 spectators pres ent, and the close score and excellent work of both clubs kept the excitement up until the final inning.

Gossip of the Game. There is lots of reputation hanging

around the Boston elub, but from the games played in this city it would seem as if several players are drawing their salaries on past years' records. The spectators criticised little DeMontre-

ville quite severely the other day for being caught trying to pilfer bases, but they should stop to consider the fact that base running is controlled by the manager, and when a player does his best he should be encouraged, not condemned.

encouraged, not condemned.

What a lucky find Charley Reilly has been for the Washington club. Hardly a paper in the country but poked fun at the local management when Reilly was signed last fall, but when they see him play their eyes will be opened. Charley Reilly has never been in the superb condition he is this spring, and has never played a better quality of ball, and that is saying a great quality of ball, and that is saying a great asemen in the tusiness.

Rusic maintains a sphinx-like silence when the question as to the conditions of the deal that brought him back is propounded. "I'm glad to be with the team again; was never in better physical shape, and am ready to pitch the best kind of ball I know how to as soon as I am called upon," is how Rusie sizes up his return, and it is in the right spirit.

There is said to be a deal hanging fire between Louisville and Philadelphia, Louisville and Philadelphia, Louisville and Philadelphia, Louisville and Philadelphia.

If the team keeps up its present strength it will not be molested, and as at present constructed a long, full and fair trial will be given it. Holmes is hardly likely to continue on the team. He wants to get away. Two clubs are after him, and it is more than likely he will shortly be re-

The game between the University of Pernsylvania and Lafavette Saturday was called in the fifth inning on account of rain. Lafavette had made 11 runs to Pennsy's 5.

Amherst was defeated by Wesleyan Sat-

Harvard overwhelmed the cadets at West Point Saturday, winning by 4 to 0. The soldiers put up a wretched game in the field and could not bat, while Harvard pounded the ball all over the field.

Brown was defeated by Yale Saturday in a close, interesting game that was in doubt until the last man was out. The field work of both teams was excellent, but Yale had better luck at the bat. Score, 6 to 2.

Cornell and Princeton met Saturday, and the Ithacans were defeated by 6 to 2. The game was a hard-fought one, and was won by the Tigers through a batting rally in the sixth inning.

Fordham College treated Lehigh to a surprise Saturday, defeating the Pennsylvania team by 15 to 7. With the score 7 to 0 in Lehigh's favor, O'Connor went into the urday by 13 to 6.

in Lehigh's favor, O'Connor went into the box, and thereafter Lehigh not only failed to score a run, but made only four hits. Lehigh also went to pieces in the field.

The second team of the Central High School has suffered defeat from the team of section L of the same school by the score of 11 to 9. The effective pitching of Durdin and the all-around playing of Duryee and Entrikin won the game. Chalenges will be gladly received by the vic-

The second Duponts defeated the seventh grade Force School by a score of 10 to 7. The features of the game were the battery work of Jacobsen and J. Finley and the battery of R. H. May.

The Rose Buds went on a flying trip to Maryland Saturday and defeated the strong M. A. C. second team by a core of 21 to 7. The feature of the game was the terrific batting of the Rose Buds, making twenty-eight hits.

NATIONAL YACHTING ASSOCIATION. Delegates From 108 Clubs in Favor

of Organization. A national yacht racing association was practically organized at the convention of yachtsmen which was held at the Fifth Avenue Hotel, New York, Saturday afternoon. Oliver E. Cromwell was appointed chairman of the meeting, and W. P. Stephens acted as temporary secretary. One hundred and eight clubs were represented at the meeting.

The meeting was caffed to devise som way of having uniform racing rules adopted by the yacht clubs of this country and Canada. To bring this about, it was suggested that a national union should be organized at once, and Aemelius Jarvis wanted a committee appointed at once and a constitution and by-laws adopted. Such hasty action was opposed by Vice Commodere Adams, Oswald Sanderson, L. M. Clark, F. B. Jones and N. D. Lawton, who claimed that they were not empowered by the clubs they represented to go into any national union.

After a long discussion, Mr. Clark, in order to move things a little and make it plain salling, offered a resolution that in the opinion of the delegates it was expedient and advisable that uniform racing rules ed by the yacht clubs of this country and

be adopted throughout North America. This was adopted, and was followed by another motion being adopted that to bring the reform about it was the sense of the delegates that a national organization should be effected; that a committee of seven should perfect the plan of organization and that another meeting should be called in October. The committee appointed by Mr. Cromwell is Newbury D. Lawton,

THEY MADE GOOD RECORDS.

Washington Ladies in the Recent Whist Congress. The Washington ladies who participated in the Philadelphia whist congress are well satisfied with the record made for this city, now that there is opportunity to analyze the work of the most successful play-

ers. While they did not bring home the prizes contested for by the 250 players participating, they have the satisfaction of krowing that representatives of this city stood next to the winners of the championship of the United States. This championship was decided by the "finals" played Friday, after the close of the congress, in which Mrs. Bradt and Mrs. Richardson which Mrs. Bradt and Mrs. Richardson of Boston won the championship of the United States. Those ladies won the right to enter this final contest because they had made the highest record in section C. the strengest section of the congress, and as Washington ladies stood next to them in the score made in that section they are fairly entitled to high rank in the struggle

or the championship.
In the play of section C, whose winners are now possessors of the championship, Mrs. Davis and Mrs. Nichols of Washington stood next to the "champions," and Mrs. Austin and Mrs. Cosby, also of this city second to them.

Harris continues to lead in the spring tournament of the Washington Chess Club with a clean string of victories. The features of the week were the defeat of Tibbetts by Anthony, who is showing unexpected strength, and the victory of Mundelle over O'Farrell. Mr. Mundelle is a very promising player. He is quite familiar with the opening he played against Capt. O'Farrell, and caught that veteran in a neat trap. The game up to the eighteenth move is said to have been playes several years ago between Jaenisch and Roumanoff. Harris also won from Prender, Tucker won from Prender, and Smith and Thomas drew the past week. The score to date is as follows:

A match for the championship of the District of Columbia has been agreed upon between Mr. F. M. Wright, who won first prize in three successive tourneys, and thereby won permanent possession of a handsome cup offered by Mr. F. M. Libbey, as well as the title of champion of the District of Columbia, and Mr. F. B. Walker, who recently won first prize in the championship tourney of the Washington Chess Club. In their match play heretofore Mr. Wright won a majority of the games, but Mr. Walker has been showing up in better form this winter, and the match promises to be close and interesting. The details have not yet been arranged, but the match will probably be continued until one player wins five games. But one game a week will be played, probably on Saturday night.

Mr. Freeman Urges Action.

Considerable excitement was occasioned at the Second Baptist Church yesterday afternoon by Mr. A. L. Freeman, who, in the course of a speech on Grant, arraigned the members of the colored race for not taking more active steps to put a stop to lynch law. Among other things the speaker said: "There are agitators in our midst who are as chicken-hearted as babies. They stirred us up to lead us to Alexandria, but when we got there we found their bluster had served but to notify the authorities of our intentions, and we were met at the outskirts by armed guards." Previous to the commencement of Mr. Freeman's address Mr. Walter Casey read

an essay on Grant, which gave much sat-isfaction and for which he was tendered a vote of thanks by the large audience. 50 Highest Awards
